THE CAMPAIGN NEWS -Our friends who desire to send in clubs, or individual names, for the Daily or Tri-Weekly News, for the campaign of four months, at our special campaign rates, must do so before the 15th inst., after which date THE NEWS will only be supplied at our regular yearly, half-yearly and quarterly

OUTRAGEOUS ASSAULT.-In Savannah on Tuesday night, Mr. McNelty, a brother of the popular commander of the steamer Pilot Boy, was knocked down by negroes in the street and robbed of his watch and other valu-

PROLIFIC COTTON.—Though the worm has played havoc with the cotton crop on the sea islands, some persons have been able to raise specimens that show what cultivation may do for the plant. A resident of this city has in his garden several plants of sea island cotton that are over ten feet high, and each shoot bearing nearly one hundred bolls.

THE CHARLESTON AND FLORIDA I INE .- At a me eting of the stockholders of the Charlest on and Florida Steamboat Company, held yesterday at the office of Messra. J. D. Aiken & Co. the following gentlemen were elected officers of the same, viz: Henry Cobia, Esq., President; L. M. Coxetter, John F. O'Neill and Robert Q. Pinckney, Directors.

SENATOR C. P. LESLIE.-The Phoenix of Thursday says: From information which we have received from an undoubted source, sinca the republication, yesterday, of an extract from the New York World in reference to socalled Senator Leslie, of Barnwell, we are convinced that the statement of that journal, of his having been "convicted of having kept an house of ill fame," is erroneous.

CELLARS -At the last meeting of Council Alderman Cade presented a memorial to Council praying the Legislature to amend the law now in existence relative to the digging of cellars in the city. This law was passed several years ago, when it was thought that the cellars were the cause of the epidemics. The law is prejudicial to business, and the memorial will be sent to the Legislature as soon as signed by the Council.

THE CITY ENGINEER. -The bill recently passed in Council reducing the pay and emoluments of the City Engineer has caused some surprise, and at the last meeting of Council a motion was made to appoint a committee of investigation to examine the affairs of the office. This was postponed, but it is understood that the City Engineer invites the examination, and his memorial to Council deprecates their action in reducing his pay. I did a

A DEBATE IN COUNCIL.—During the Council proceedings, while a resolution granting money for repairs to the Hope Engue House was under discussion, Alderman Weston and Wall objected, as their signatures had not been asked for by Alderman Potter, the chairman of the Committee on Public Buildings. They tronomy failed us. It had not one word about tronomy failed us. It had not one word about seeing stars at midday on the eleventh of September 1. The matter was finally settled by recommitting the bill, and it was signed by those present and

THE FALL BONNETS .- A Paris correspondent writes concerning the new fashions for autumn millinery: "I had a peep behind a few scenes preparatory to my departure from Paris, and I remarked that very narrow bonnets of the fansohon form were still likely to prevail. One I saw was of fine rice straw, trimmed with black velvet, and with a pale pink rose at the side another was a fancy straw, with a bouillonne of sapphire velvet across the top, in which trembled a straw lily of the valley, sprinkled over with steel heads, blue gros grain strings. All the new autumn bonnets that have come under my notice are very high in front, and without exception, they have strings to them. Feathers and aigrettee are the favorite trimmings. There is a new autumn hat made of gray felt, and called 'Marechale;' it is bound with gray velvet, and ornamented with a tuft of feathers-its crown is low, and the brim but slightly turned up, bu it is very graceful in effect."

MERCANTILE CO-OPERATIVE A-SOCIATION. -AD adjourned meeting of the subscribers of the above Association was held at the Hall of the Washington Fire Engine Company, on Thursday evening, 10th instant.

After confirming the minutes of the pre-Monday evening, 7th instant, the meeting proceeded to the business of organizing the As-

sociation. . The constitution received its second read ing, and its several sections were submitted to the meeting servatim and adopted respectively,

and upon its third reading was finally adopted as a whole. Tellers to lake the sense of the meeting from time to time, and a Committee on Proxies

and Managers of Elections were appointed by On motion, the chair appointed a committee of seven to nominate fourteen subscribers

from whom a choice of seven were to be made by ballot for a board of directors. An election was entered into with the fol-

lowing result: J. R. Emery, E. P. Aimar, E. Williman, H. T. Peake, R. H. Teasdale, G. H. Walter, J. T. Kanapaux.

Several resolutions were adopted, among them one tendering the thanks of the Association to the Washington Fire Engine Company

for the use of their hall so kindly offered for its meetings. It was requested that the chairman vacate his seat, and that Mr. E. Lafitte act tempo

rarily. Mr. Kapapaux moved that the thanks of the association were due, and that they were kindly tendered, to Capt. Walter, for the able, courteons and dignified manner with which he presided over its meetings, which was unanimously adopted.

Upon motion, Captain Walter resumed the chair, and in a few brief remarks congratulated the Association upon its successful organization, and predicted a highly satisfactory resuit before many months shall have elapsed.

The meeting then adjourned sine die. The Board elect then organized by electing Cant. Geo. H. Walter President: and at a subsequent meeting, elected Mr. L. C. Hendricks Secretary and Treasurer, and Mr. J. Bennett Lanneau as Chief-Manager of Operations.

EXTRA MEETING OF CITY COUNCIL.-FRIDAY eptember 11.-Present, the Mayor; Aldermen Geddings, Cunninghma, Lindstrom, Weston, Wall, Cade, Olney, Whilden, Voigt, Howard, Marshall and Moore.

The following bill coming up for its second reading was taken up by sections, and after a full discussion and close compar son with the provisions of the old Tax bill, passed the second and third readings, and its title was ordered to be changed to that of an ordinance and to be engrossed for ratification:

Bill to change and molify an ordinance "to raise supplies for the city for the year 1868, and for

other purposes."

Be it ordained by the Mavor and Aldermen in Council assembled, That the said ordinance shall be amended so as to read as follows, to

wit:
Peragraph 2 of Section 1—Fifty cents on
every hundred dollars of all sales of goods,
wares or merchandise (except botton) on personal account, or on account of others; and sonal account, or on account of others, and twenty-five cents on every hundred dollars of all sales of otton on personal account, or account of others, payable monthly.

Paragraph 5 of Section 1—Fifty cents on every hundred dollars of all sales at auction, provided monthly.

every hundred collars of all sales at auction, payable monthly.

Paragraph 21 of Section 1—Fifty cents on every hundred dollars of the gross receipts of hotels or public eating or boarding houses, payable monthly.

Paragraph 22 of Section 1—Fifty cents on every hundred dollars of all receipts of livery stable keepers, payable monthly.

Paragraph 24 of Section 1—Fifty cents on every hundred dollars of the gross receipts of all printing offices, newspapers and publishing houses, payable monthly.

Paragraph 26 of Section 1—Fifty cents on every hundred doll rs of all sales of horses and mules brought to the city, payable monthly.

every hundred doll rs of all sales of horses and mules brought to the city, payable monthly.

Paragraph 29 of section 1—Fifty cents on every hundred dollars of gross receipts of all tavern keepers and liquor dealers, payable monthly.

One dollar on every hundred dollars of all freight and passenger lists of all steamers or sailing vessels, paid or payable in this city, the same payable monthly, the consignee or agent of said vessels to be held liable for the payment of the same into the hands of the City Treasurer.

Treasurer. This ordinance shall take effect on and after

Deferred business being the next in order, the favorable report of the Committee on Streets relative to the plank road in John, Chapel and Washington streets was taken up and adopted.

At this stage of the proceedings Alderman Cade presented a memorial of the Mayor and Aldermen to the Legislature in relation to the law regulating the digging of cellars, &c., in the city. Ordered to be sent to the Legislature when signed by the Mayor and Council. The report allowing Mr. P. J. Coogen the

sum of \$164 for land taken to straighten Queenstreet was adopted. A report was read from Hook and Ladder Company No. 1, praying that certain necessary alterations, not made by the contractor,

should be allowed them by Council. Referred to the special Committee on Fire Depart-A protest from the City Engineer relative to the recent bill passed by Council, and showing that the emoluments and pay of the office had been reduced contrary to the provisions of the bill creating said office, was ordered to be pub-

next mesting. Alderman Geddings reported favorably on the petition of the Hope Fire Company for repairs to their Engine House. Adopted.

lished and laid over for consideration at the

Alderman Wall moved that a committee of five, of which the Mayor be chairman, be appointed to investigate the affairs of the City Engineer's office, and report at the next meeting. After some discussion the resolution was adopted, and Council adjourned.

SEEING A STAR BY DAYLIGHT .- Quite an excitement was created on the streets yesterday, about one P. M., by a report that a star was visible in the western sky. People gathered it in the affirmative. Some may reply to it from in groups at the corners or popped their heads | a sick bed; others, of a stronger constitution and out of third story windows, all turning their greater powers of endurance, may only experi- FLAT PAPERS, eyes like so many heathen to one point in the sky. Seized with a laudable desire to inform the gaping multitude what star they were looking at, and why they could see it in the day time, we rushed to the almanac for information. But, alas, that vale mecum of asember. Venus, it said, could be seen with the naked eye by daylight in May and June, and

aid of a good telescope all the year round. Thrown thus on our own resources, we can only account for the phenomenon in this wise. Everybody said it was Venus, and nobody said it wasn't. So we suppose it must have been, or somebody would certainly have known better. The star that was seen being thus ascertained to be Venus, Venus is in her ophelion i.e., in that point of her orbit farthest from the sun. Of course it is cold out there. Her seas are all frozen over. The ice glitters. Hence the uncommon brilliancy that enabled her to be seen yesterday.

WHAT IS THE MATTER WITH YOU? This is the familiar question put to every invalid. In many cases the answer is, "I don't know exactly, but I don't feel well." Look at the countenance of the man or woman who makes this reply, and you will generally find that the eyes are dull and lustre less, the complexion sallow, the cheeks flaccid, and the whole expression of the face dejected. Interrogate the invalid more closely, and you will discover that constipation, the result of a disordered stomach and a torpid liver, is at the bottom of the mischief. "That's what's the matter." Whoever has experienced the effects of TARRANT'S EFFERVESCENI SELTZER APERIENT in such cases, need not to be

teld to recommend it as a remedy. TARRANT & CO., Wholesale Druggists, No. 278 Greenwich and No. 100 Warren streets, New York.

Sold by all Druggists. 3mos 22 July 6 HAS THE SUMMER ENFEEBLED YOU?-Nine out of every ten to whom this question is addressed, if they answer it candidly, will answer ence a slight lassitude as the consequence of the torrid season. But some portion of the vitality o all human beinge oozes out of them under the pressure of great and continuous heat, and the sooner the loss is completely repaired, the less sunceptible will the system be to the unhealthy influ-

ence of the fall malaria. the attacks of disease—is HOSTETTER'S SIOMACH thatit and other stars might be seen with the BITTERS. Taken at this season it is a perfect safe guard against intermittent fever, bilious affections and all the epidemics which follow close upon the expiration of the summer. It is an invigorant and alterative without any of the drawbacks which attach to mere stimulants, and is the only preparation of the kind which a conscientious physician would feel inclined to prescribe for lades in delicate health. Nothing can be more pure, more harmless, more certain to restore the vigor of the system per manently and thoroughly, without exciting the September 12

GET THE BEST!

McINTIRE'S IMPROVED COTTON TIE.

THE ABOVE CUT REPRESENTS McINTIRE'S IMPROVED COTTON TIE, WHICH WE HAVE NO HESITATION IN PRESENTING

BEST TIE IN USE.

It has been thoroughly tested in different sections of the South, and its superior merits freely acknowledged by all who have tried it. In fact its popularity has become so great as to warrant us in the assertion that it is destined to become THE UNIVERSAL FAVORITE. This TIE combines ease and simplicity of adjustment with undoubted scrength and durability. We particularly invite the attention of PLANTERS, PRESSMEN and deal is generally to the following points: The perfect construction of the Hinge and rounded edges of the Buckle secure the entire strength of the Band, and give it great advantages in compressing. It has no Tongues to press against the Band—does not require any Pins to be shipped in, pulled out or to Fall our; and is used without the troublesome operation of bending or looping the Band. The manner in which it works is easily understood from the cut. Each Tie is complete in itself—the Buckle being riveted to the Band; and no part can be lost. The simple process of running the Band into the Buckle and letting it go at the proper place is all that is necessary, the fastening being perfected the moment the pressure of the cotton is brought to bear on the Bands. The Buckle is strong, compact and small, presenting an even surface, has no rough edges or protruding points, consequently sinks even with the exiton and obviates the great objection to other Ties, which are wrenched apart when the buckles of different bales get caught in handling or transportation, and especially when bales are piled on each other. each other.
